

A hand is shown from the top left, pointing with the index and middle fingers towards a white bowl filled with a variety of colorful antibiotics, including capsules, tablets, and gummies. The background is a plain, light-colored surface.

Misuse of **ANTIBIOTICS** puts us all at risk.

Taking antibiotics when you don't need them speeds up antibiotic resistance. Antibiotic resistant infections are more complex and harder to treat. They can affect anyone, of any age, in any country.

Always seek the advice of a healthcare professional before taking antibiotics.
